/ AI is going to unleash my productivity... as soon as I can figure out what it's good for.

That sums up the current state!

By [Emilia David](#), a reporter who covers AI. Prior to joining The Verge, she covered the intersection between technology, finance, and the economy.

Jan 25, 2024, 10:53 AM EST | [42 Comments](#) / [42 New](#)

theverge.com

This happens with every tech paradigm shift.

Remember when we used our iPhones to make it look like we were drinking beer and holding up lighters?

The first iPhone circa 2008.

We can't allow ourselves to get distracted by cool tech and ignore the systemic changes happening around us because of that tech.

This is a popular refrain on how AI will impact the workplace experience.

AI will not take your job. **Someone using AI will.**

It's **wrong.**

- ✓ Get past the noise and hype
 - ✓ Explore the strategic potential for AI in workplace learning and performance
 - ✓ Identify practical steps to advance our strategies
 - ✓ Be frank, open-minded and forward-thinking
-

Be afraid to ask questions and challenge others
Get distracted by cool technology
Be unrealistic or defensive
Get everything right

We're in the middle of the next **digital paradigm shift**.

ai

Non-generative AI refers to artificial intelligence systems that analyze and interpret data to make decisions, provide recommendations or perform tasks, without creating new content.

Generative AI is a type of artificial intelligence that can create new content, such as text, images or audio, based on learning from existing data.

Multimodal AI is a subset of GenAI. It combines information from different sources or modalities, like text and images, to generate content that is more holistic and contextually rich.

AI is good at ...

- ✓ Recognizing patterns
- ✓ Automating repetitive tasks
- ✓ Summarizing information
- ✓ Making predictions
- ✓ Personalizing at scale

AI is NOT good at ...

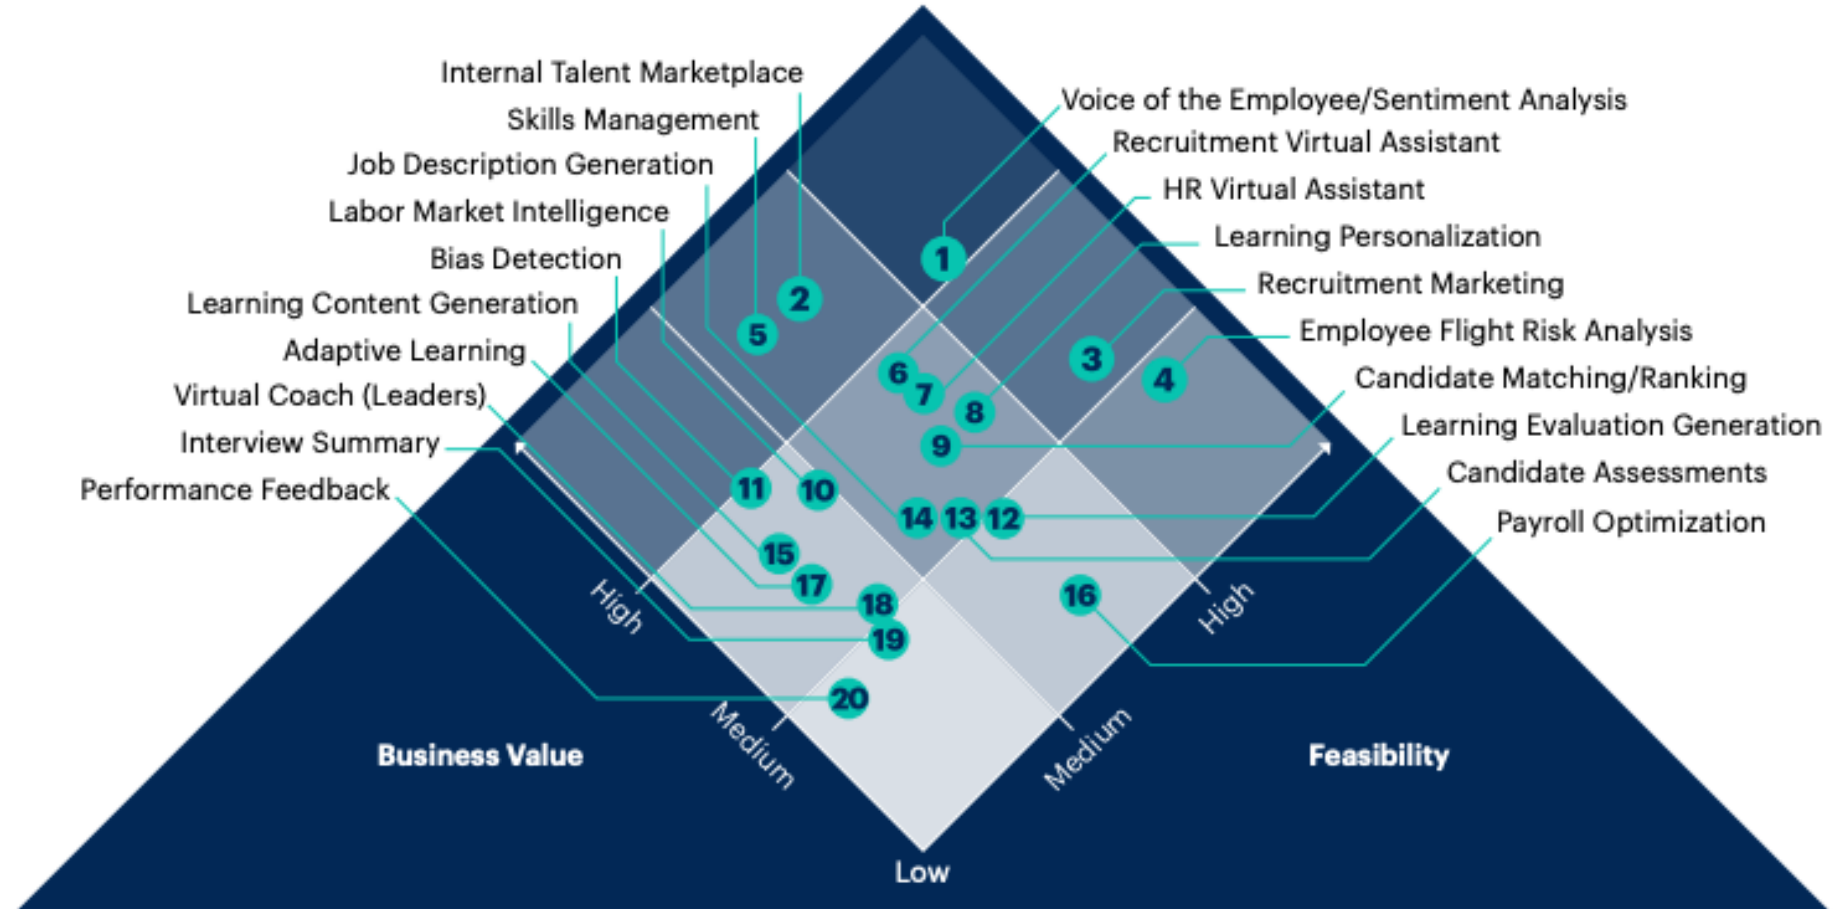

- ✗ Creating original ideas
- ✗ Determining truth
- ✗ Applying common sense
- ✗ Understanding context
- ✗ Applying empathy, ethics, judgement

From telling the machine **what to do** ...

... to telling the machine **what you want.**

Marketing Meeting with Max

Summary

Julie met with Rob and Max to discuss the current state of the business and explore future plans to propel the company forward. Julie provided a comprehensive overview of the existing marketing strategy. With compelling data, she showcased the remarkable success the current strategy had achieved to boost brand awareness and drive impressive sales figures. Rob and Max were excited and appreciative of the outcomes that were presented.

Rob asked about the current state of the business. Julie is confident that the innovative marketing strategies, commitment to data-driven decision-making, and a firm grasp on the competitive landscape, will put the company in a strong position for continued success.

We're already seeing organizations take **big swings** in their early experiments with AI applications.

LEADERSHIP · A.I.

Nearly half of CEOs believe that AI not only could—but should—replace their own jobs

BY ORIANNA ROSA ROYLE

October 3, 2023 at 11:12 AM EDT

LEARNGEEK

AI at the ORG LEVEL

- 60% of organizations use GenAI.
- GenAI spending expected to double to \$151B this year.
- 28% of companies have GenAI on their BoD agendas.
- 37% of business leaders say AI replaced workers in 2023.
- 83% say AI skills will help current employees retain their jobs.

Businesses are looking for new ways to overcome disruption, reduce costs and grow revenues.

**AI will unlock new business models -
changing not only the way people work
but also the work they do.**

- ✓ Maximize efficiency
- ✓ Scale consistency
- ✓ Reduce costs

What role does L&D play in this operational shift?

The **FUNCTION** determines the best way to accomplish this work.

Learning is a human process. It does not change.

Timely, consistent,
reliable communication

Training on core job
knowledge and skills

Access to on-demand
performance support

Actionable coaching
and feedback

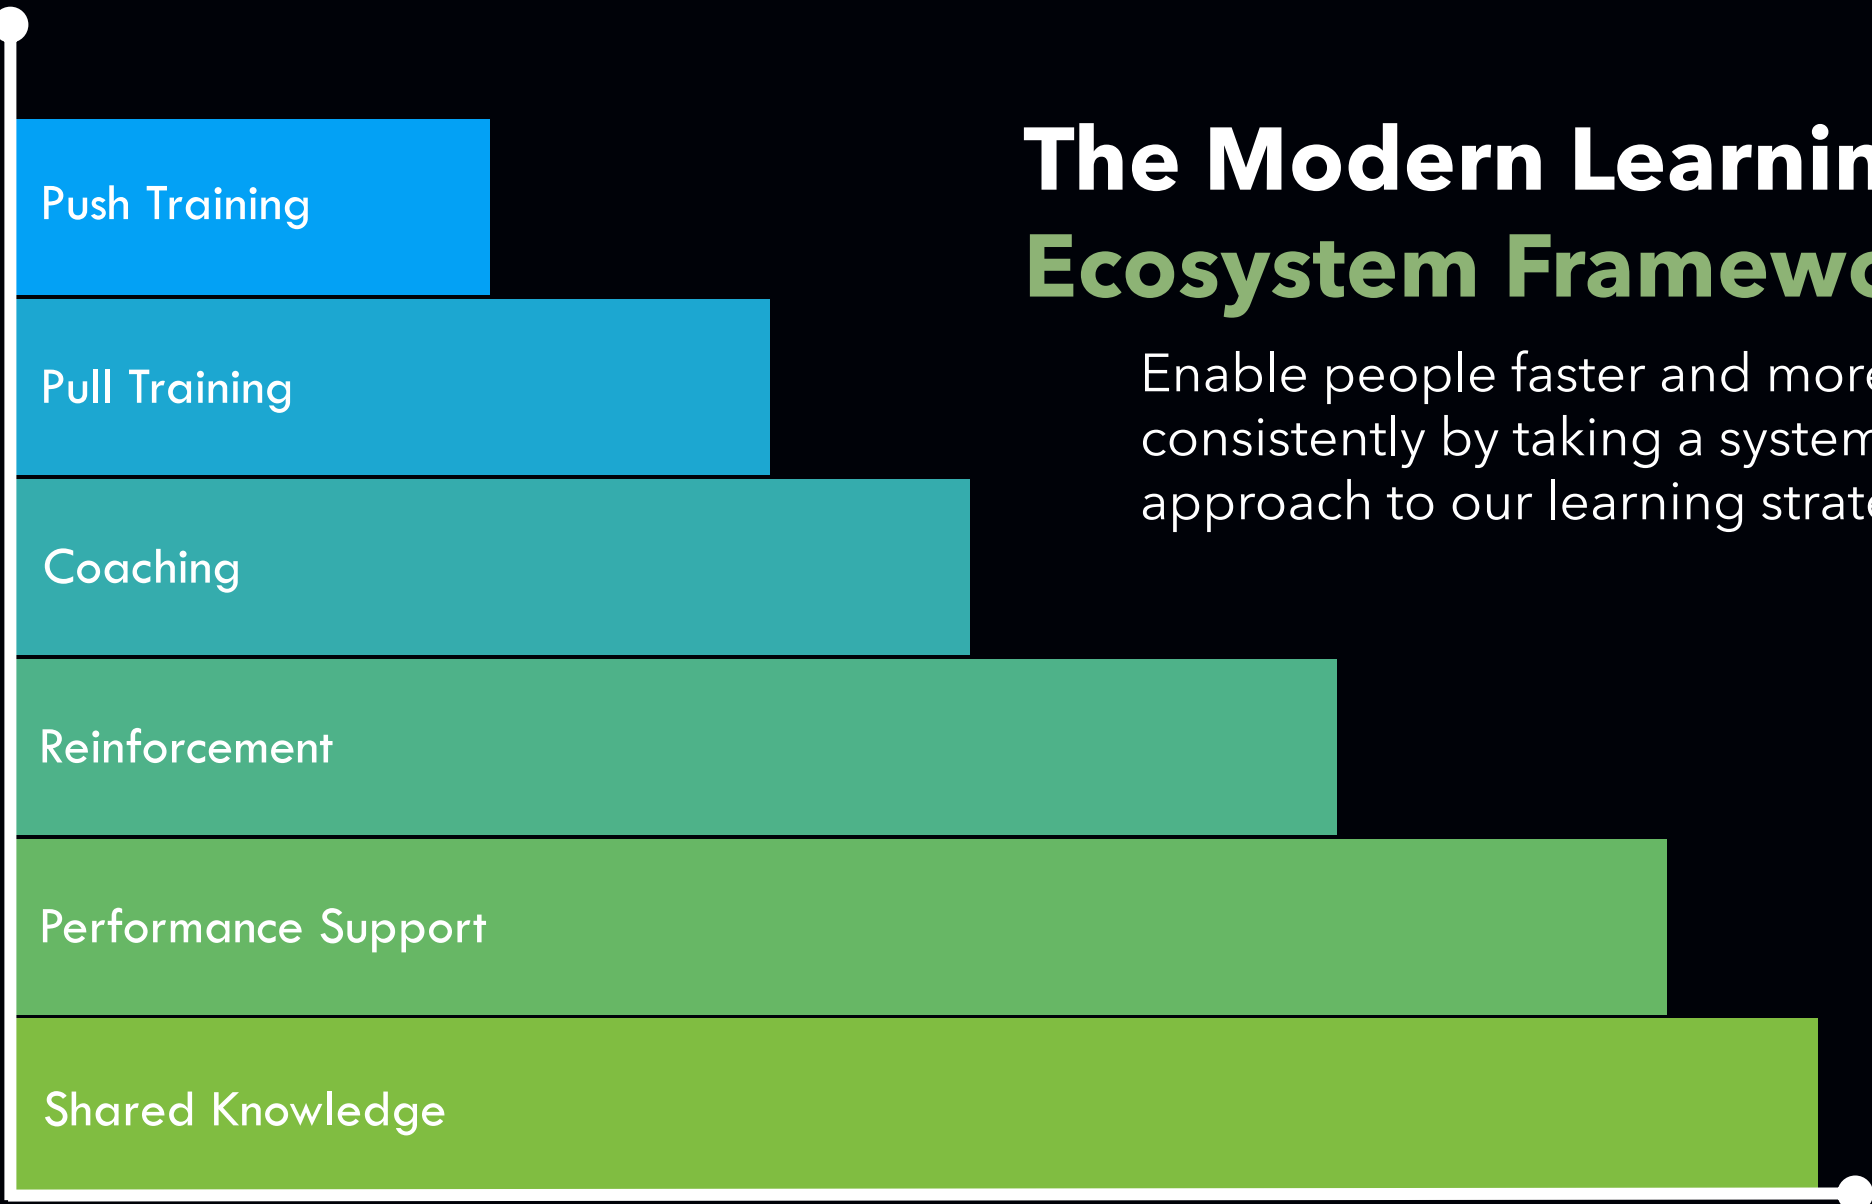

Ongoing practice
and reinforcement

Opportunities to develop
and apply new skills

STRUCTURE

The Modern Learning Ecosystem Framework™

Enable people faster and more consistently by taking a systems approach to our learning strategies.

AVAILABILITY

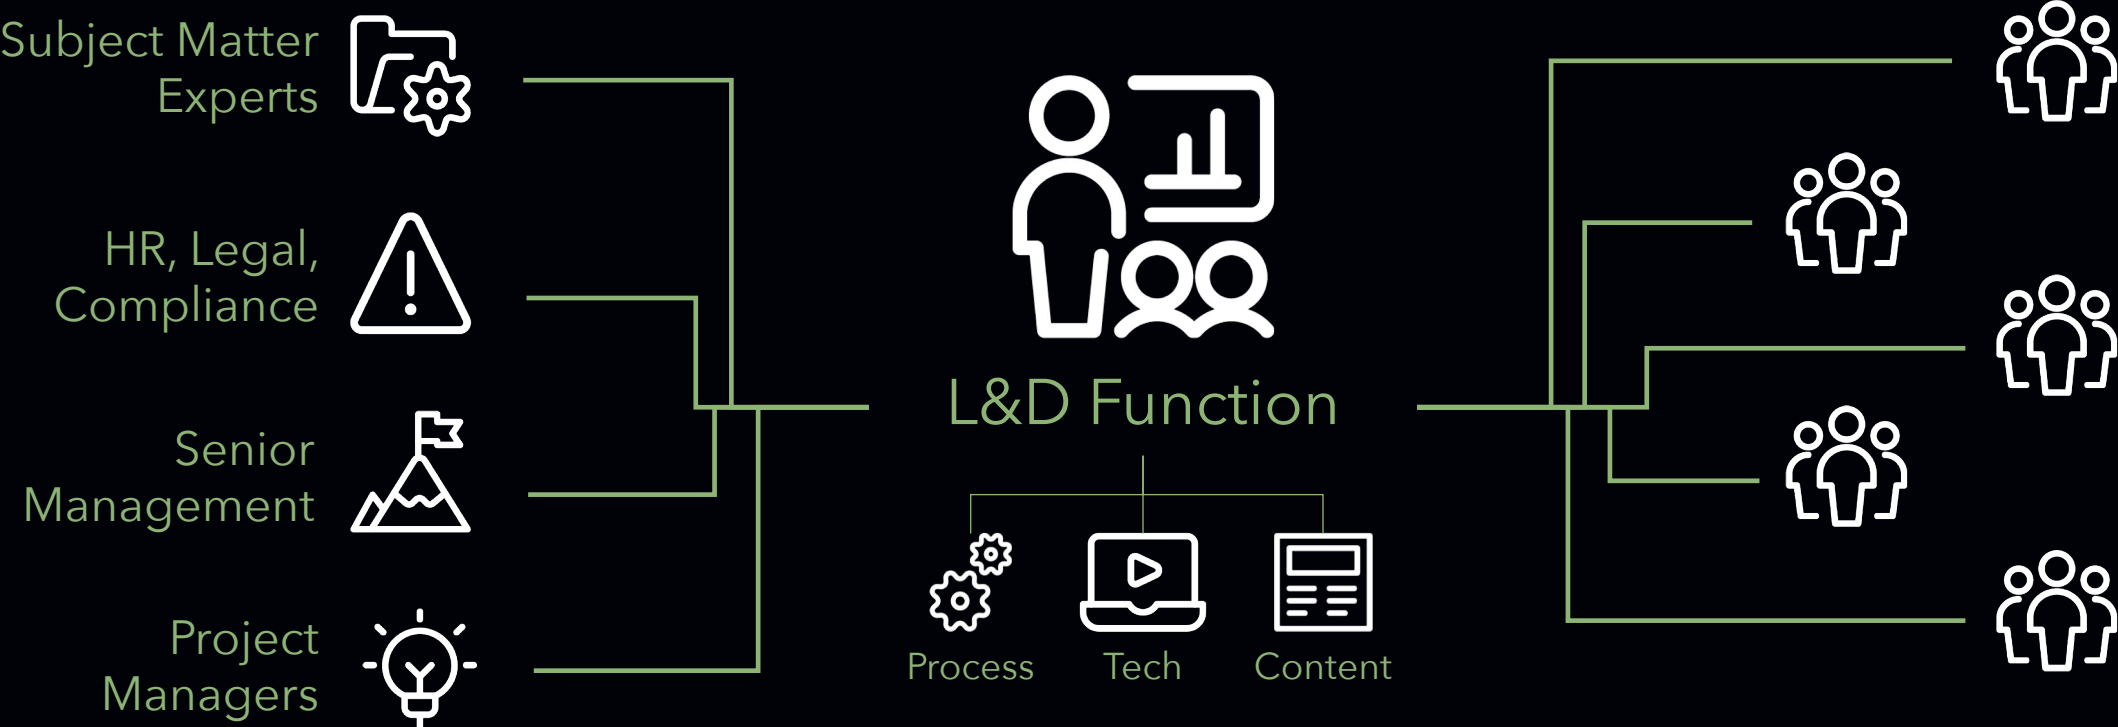

Operations just announced a major SOP change. They've requested training for the entire frontline workforce (of course) to make sure people understand the changes (and to check the regulatory box).

The new SOP goes into effect in six weeks, leaving little time to build and deploy training to thousands of people.

Traditional L&D

Push Training

- SOP Update Course (English, Spanish with Captions)

Coaching

- Actionable Manager Insights (dashboard)

Reinforcement

- Huddle Practice Questions (manager email)

Performance Support

- Contact Hotline

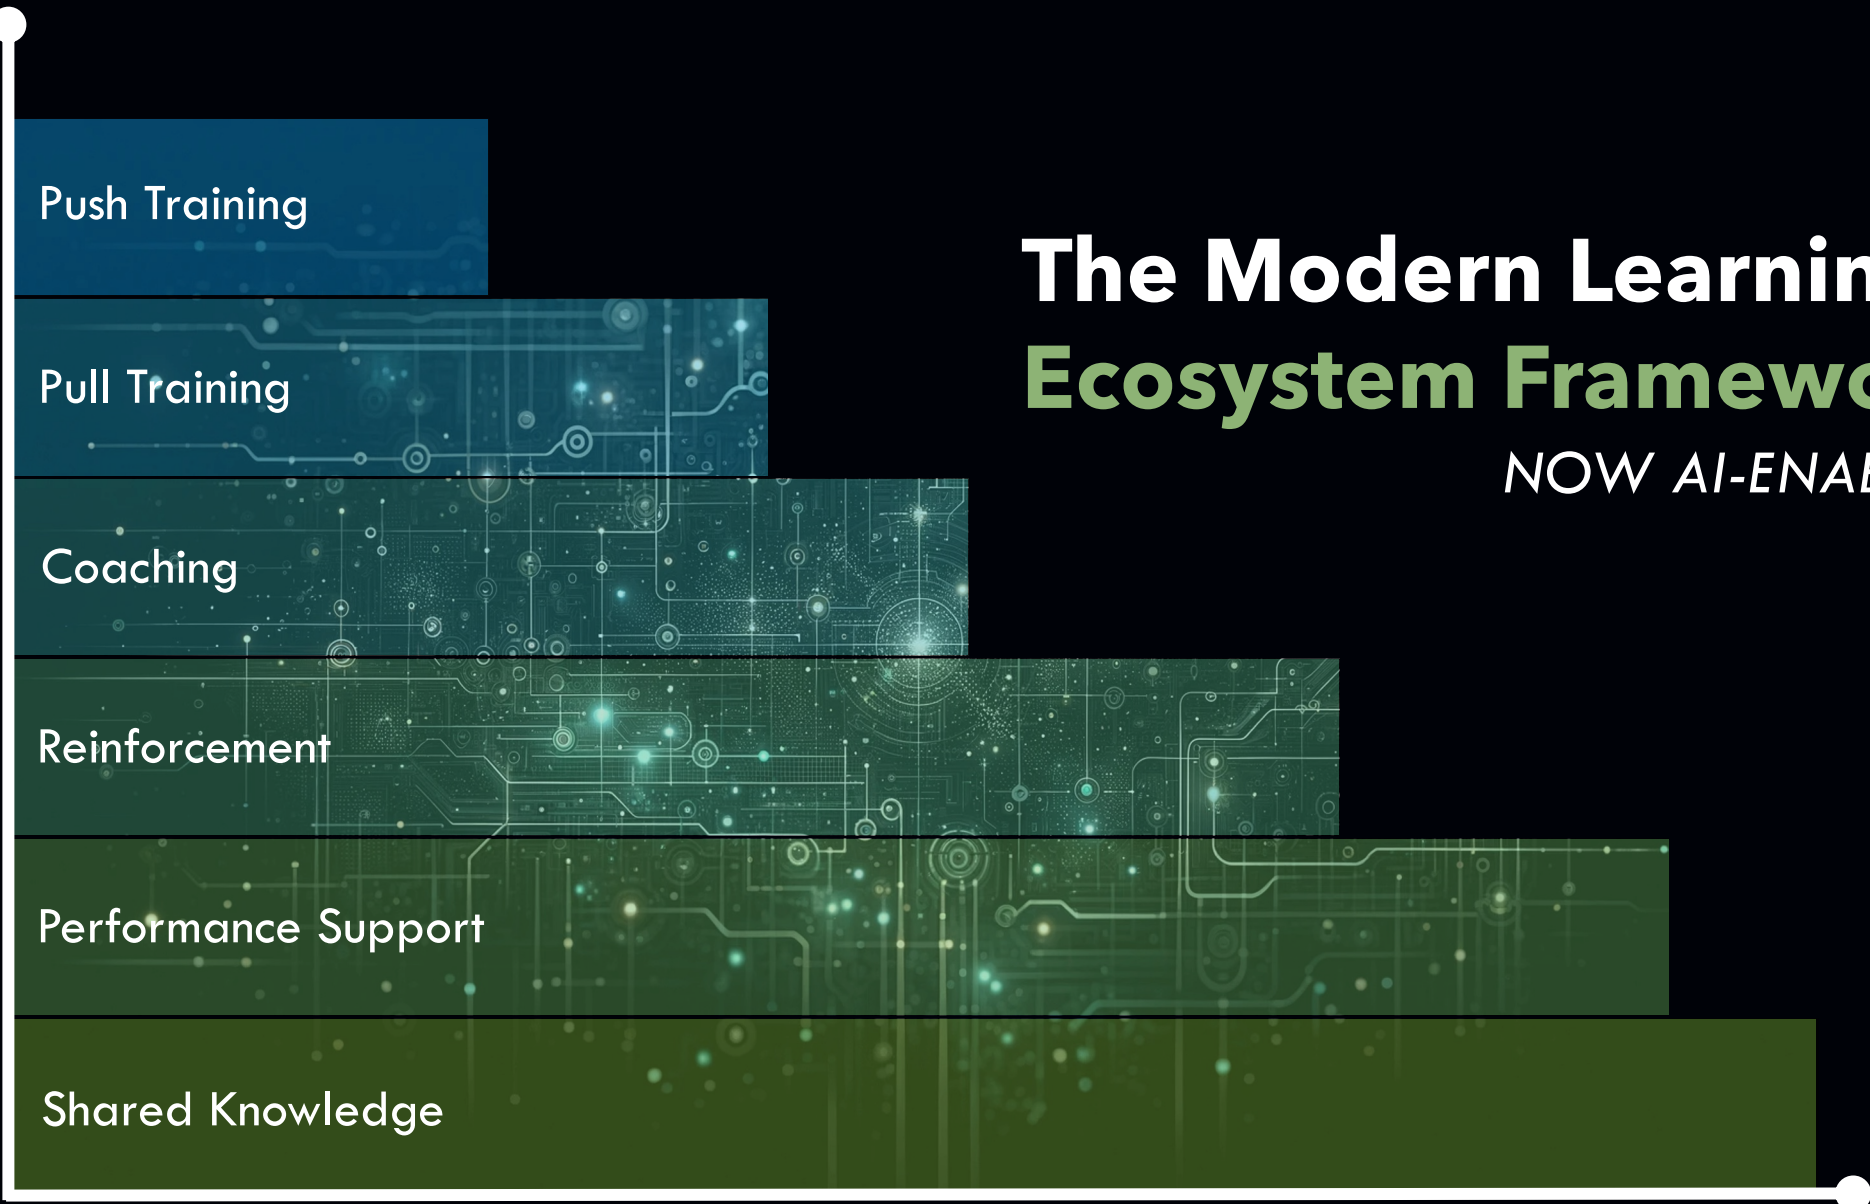

Shared Knowledge

- Standard Operating Procedure (English, Spanish)
- Job Aids (English, Spanish, French)
- Update Communications (huddles, postings)

**How can we apply AI to make employee support
faster, cheaper, personal, equitable and scalable?**

STRUCTURE

The Modern Learning Ecosystem Framework™

NOW AI-ENABLED

AVAILABILITY

Push Training

- n/a

Coaching

- Automated Nudges (based on individual performance)

Reinforcement

- Automated Nudges (by individual in preferred language)

Performance Support

- Digital Assistant (by role + preferred language)

Shared Knowledge

- Standard Operating Procedure (preferred language)
- SOP Summary (by role + preferred language)
- Digital Update (by role + preferred language)

**These types of problems will be solved
without involvement from L&D.**

AI-Enabled Learning Ecosystem

Legacy practices

build courses
deliver programs
partner with SMEs
manage projects
check boxes

AI-enabled practices

curate input
maintain systems
enable creators
foster experiences
surface insights

(and still check boxes)

L&D must understand how the **WORK** is changing so we can determine how to best support it.

L&D must adapt our **TOOLS, SYSTEMS and PROCESSES** to fit this new version of work.

L&D pros must develop the **MINDSET and SKILLS** needed to enable this learning ecosystem.

How fast will this transformation happen?

TODAY

- ✓ Templated digital content
- ✓ Voice-over audio
- ✓ Informal language translation
- ✓ Assessment questions
- ✓ Text-based messages
- ✓ General illustrations
- ✓ Captions
- ✓ Content Summaries
- ✓ Automated nudges

NEXT YEAR

- AI becomes table stakes
- SMEs become creators
- Translation gets formal
- Multimodal goes mainstream
- More admin gets automated
- DAs become more common
- Search returns answers
- Text-to-insights start to replace ad hoc reporting

WITHIN 5 YEARS

- Learning tech is integrated with Operations
- Digital creation is transformed
- Personalization is the norm
- Nudges become the standard training tactic
- Learning impact is clear and measurable

LearnGeek Core Technology Principles

Transparent

Strategic

Grounded

Equitable

Compliant

L&D must begin shifting our mindset, expanding our skills and adapting our practices now to uncover the value we will provide in this next version of work.

Your organization is going to apply...

AI will not take your job. ~~Someone~~ using AI will.

... to change how work gets done.
